Managing Director Festive

Quote 2:

Andy Smith – Bourne Electrical

The cost to fit this year is £3500+VAT to include installation and dismantling.

Note: We need to purchase some new lights to be installed on Baines Corner after we have established if we have spare from the main installation from stock. Anticipate we may need 6-8 sets costing approximately £800/1,000.00

We do need to allow circa £750.00 for testing of the fixings.
